

Flipped Classroom

**27 Oct 2016 – Briefing for
Students**

What is a flipped Classroom

Traditional Classroom

+

- Instructor prepares material to be delivered in class.
- Students listen to lectures and other guided instruction in class and take notes.
- Homework is assigned to demonstrate understanding.

Flipped Classroom

- Instructor records and shares lectures outside of class.
- Students watch / listen to lectures before coming to class.
- Class time is devoted to applied learning activities and more higher-order thinking tasks.
- Students receive support from instructor and peers as needed

Preparing for a flipped lesson

Tools needed

What you need?

- Access to internet – must have.
- You must have a Gmail account – lesson materials will be uploaded in Google Drive.

What is a Curriculum

Content/pedagogy/assessment

Lesson Delivery

Pedagogy

Your Learning Mode

- $2 + 2 = 4$, this is the same whether I say it or the internet says it.
- So you are going into a self-directed independent learning mode where your learning will be scaffolded through a series of Power-point slides that will include some elements of a flipped classroom.

Elements of a flipped classroom

What are they?

Elements

- Power-point slides would take you to other resources in the internet which would expose you to some elements of the flipped classroom:
 - Visual text (the ppt slides and other resources)
 - Animations
 - Videos; etc

How to be effective?

What you need to do?

Effectiveness is dependent on:

- How critical and analytical you are to what you read.
- How to watch animation, video and other content? Yes you know how to watch “**SPIDERMAN**”. Its not the same as watching an educational video!

**Not the same as
viewing and
watching
educational
content**

Effectiveness is dependent on:

- You need to interact with the content, may it be video or anything else, in a meaningful way.
- Reflect and think through what you are exposed to.
- Before you start, ensure that your mental state is ready and prepared for learning.
- Ensure that you internalise the learning content.
- Take notes, because you are accountable for your own learning.
- Break up the content to smaller chunks as you will be given sufficient time to cover the content given.
- Please date each chunk of your notes and consolidate them at the end.
